## Announcement of Open Position

## SENIOR SYSTEMS ANALYST
### $56,167.41 - $ 90,720.03 ANNUAL SALARY

Open: 05/08/06 8:30 A.M.
Close: UNTIL FILLED

### NATURE OF WORK

This is an analyst/programmer position for a highly motivated individual who is skilled in systems analysis and design, and implementation of complex systems in the automation of city functions as well as having full life cycle experience developing web-enabled MS-SQL database-driven applications. Applicant may be assigned to a variety of tasks related to the creation, modification, or maintenance of systems, e.g. programming, user training, and/or to provide system support to users of various city-wide applications including all third party software packages supported by the Information Technology Department. This position will handle the Accela Permits Plus 5.2 and Accela Wireless client applications for various city departments. Creating compositions and light business process support will be critical aspects for this position.

### MINIMUM REQUIREMENTS

College diploma or university degree in the field of computer science, management information systems, mathematics or related field; also, at least five (5) years equivalent work experience as a programmer/systems analyst. Additional related experience and/or current technical certifications may substitute for education on a year-for-year basis. Full systems development life cycle experience developing applications in a three tier environment (Client, Application, Database). Experience developing web-enabled applications- VB.Net, ASP.NET, SQL Reporting Services, Windows Web Services, experience with data management, good understanding of the organization's goals and objectives, knowledge of applicable data privacy practices and laws, strong interpersonal and oral communications skills, adept at reading, writing, and interpreting technical documentation and procedure manuals, ability to conduct research into software issues and products as required, ability to present ideas and solutions in user-friendly language, highly self motivated and directed, proven analytical and problem-solving abilities, ability to effectively prioritize and execute tasks in a high-pressure environment, strong customer service orientation, experience working in a team-oriented, collaborative environment.
